The clean, streamlined look of this kitchen design was further enhanced by the use of Custom Choice to create a transom look without the need for seams or fillers.

## THE IDEA: NEUTRAL PARTY

What does one wear to a celebration of simplicity? Cabinetry with a deep, rich accent finish contrasted against cool neutrals are in. Loud colors and excessive accessorizing: definitely out.

THE IDEA: AT FIRST SIGHT

When you have to remind yourself to breathe, that's when you know—you've found The One. A space you can organize your life around, with just the right personality and functionality. Oh, heart be still.

The dust settles. The sun appears. And you find yourself at peace in a space of your own making — surrounded by everything you need (and nothing more) to conquer your to-do list another day.

THE IDEA: BASICS TRAINING

THE IDEA: LIFE'S A BEACH

You've made it. You've earned that daily walk along the shoreline, and it's a beautiful revelation when you discover you can bring the pleasures of being outdoors in. Expansive views, tranquil beach colors, natural elements... Breathe it in.

THE IDEA: MADE FRESH DAILY

A design pioneer, you are. Armed with prairie-inspired cabinetry and hardware, plus some rock-solid design principles, you set out to turn an inhospitable tract of interior into the mother of all meal prep territories. Hats off to you.

ARBOR

THE IDEA: SUNNY OUTLOOK

Happiness is less about which side of the bed you wake up on than the kitchen atmosphere you walk into. So choose your cabinets wisely and give yourself plenty of room—to think, to cook, to catch up, to stop and smell the Arabica beans.

LAUREL 5-PIECE

Traditional labels don't stick to today's kitchen. One moment it's preparing pasta. The next it's uncorking the cabernet and pouring out its heart to its closest friends. Salut, indeed.

## THE IDEA: ROOM FOR LIVING

VERANO

THE IDEA: ROASTY TOASTY

Cool, steely neutrals have enjoyed their morning in the sun. Instead, break out your best slippers, pour a cuppa joe, and cozy up with your thoughts in contemporary digs brimming with rich, brownish grays.

WESTLAKE

Several unique, Custom Choice touches grace this one-of-a-kind kitchen, including a wide top rail for the Crown Moulding application, custom stacking of the Transom Cabinets, and Wine Storage Cabinets topped with drawers.

Let's live to the best of our abilities rather than beyond our means. Let's trade drab and dated for warm and comfortable. Let's turn our houses into havens. And live more richly with less.

HEARTLAND

THE IDEA: INTERNAL FORTITUDE

True beauty is never just one thing but a combination of courage, confidence and conviction in the face of overwhelming odds—and undersized floor plans. Ready to change your world? We wouldn't put it past you.

## THE IDEA: CENTER OF ATTENTION

Effective design doesn't scream, but uses contrasting features to underscore its vision. Bold darks and silky smooth creams. Victorian embellishments and Shaker style. Stainless steel, white trim and natural flooring. Yep, we're hooked.

THE IDEA: LEMONADE STAND

You miss the old neighborhood and the friendly passers-by who built your confidence, one ice-cold drink at a time. But it's okay. You've found a new place to stir up conversation and store away warm memories. Now where's that sign?

Function is the new fashion. Budgets are skinnier. And when something looks this good, and works this well, there's no need to put on airs or major additions.

THE IDEA: JUST ACT NATURAL

THE IDEA: SWEET SPOT

Hail the hot project’s inevitable adrenalin rush. Cave to binge-watching the trendy new series everyone’s buzzing about. Heed the beckoning call of that epic best seller. Whatever your leaning, your happy place awaits.

Store creatively using Custom Choice. Here, modified file drawers blend seamlessly with standard drawer storage to attractively address office storage needs.

THE IDEA: SHAKEN NOT STIRRED

Living rooms have received little respect as of late. Yet here is proof that kitchens need not be the sole entertainment capital of the home. Designers, the gauntlet has been thrown.

HERSHING

JORDAN

Life is filled with transitions, none more important than the finite space between the garage and the kitchen. Coats hung. Shoes removed. Worries washed away. An organized oasis in a chaotic world.

## THE IDEA: DROP EVERYTHING ZONE

Custom Choice is the ideal option for creating a work space that works for you. The entry and laundry storage cabinets in this home incorporate unique, customized face frames and shelf configurations to perfectly accommodate a busy family.

THE IDEA: SOUND SURROUND

Our blockbuster door style from Day One, Ogilby drew rave reviews and repeated requests for a matching 5-Piece Drawer Front. Far be it from us to disappoint our fans. Enjoy the sequel.

OGILBY

WOOD & FINISH OPTIONS:

At the end of the cabinet making line, it all comes down to this: quality in, quality out. Of course, the same argument could be made on behalf of quantity. Why do we offer so many wood types and finishing options, you ask? Because while all our customers expect the same attention to detail, no two dreams are ever the same.

YOUR WOOD CHOICES:

MAPLE

- Subtle grain pattern
- Smooth, uniform appearance
- Color may range from creamy-white to pale, reddish-brown within a panel
- May include tiny “bird’s eye” dots and mineral streaks

CHERRY

- Color may vary from tan-blonde to deep brown within a panel
- Cherry darkens naturally as it ages, blending hues from golden yellow to deep red

OAK

- Very strong, open-grain pattern
- Color may vary from salmon-red to dark cinnamon within a panel
- May include random worm holes, mineral deposits, knots and wild grain patterns

HICKORY/  
RUSTIC HICKORY

- Strong, dramatic grain pattern
- Color may range from blonde to tobacco-brown within a panel
- Natural beauty enhanced by random worm holes and knots
- Rustic Hickory shares similar characteristics of Hickory, but may appear more dramatic in color variations, pin holes, knots, burls and color streaks

THERMOFOIL

- Sleek surface
- Durable performance
- Carefree maintenance
- Color may change slightly over time, depending on environmental conditions

YOUR THREE FINISHING OPTIONS:

**FINISHES** All doors and drawer fronts for stained wood styles are hand-sanded prior to the first stain application. Stain is applied to the door and drawer fronts in an automated application using our Padlock™ roto-process finish system. They are brushed where applicable and oven- or UV-cured as a drying procedure. A sealer coat is applied and develops a bond in the stain, and then sanded again. A final topcoat is applied for long-lasting protection.

**OPAQUES** Opaques are different from standard wood finishes. On all wood products, expansion and contraction are typical due to change in climate conditions. Due to this normal movement, opaques may develop slight separation lines, finish breaks and seam lines. These will be most notable at stile, rail and panel joints. Joint separation may become more noticeable over time and through seasonal changes.

**FINISH AND OPAQUE GLAZES** A professional layer of glaze can add another layer of beauty to your cabinets. Hand-detailed glaze application adds depth and dimension to the cabinet’s appearance by highlighting the profile of the chosen door style. Hand-detailed glaze will leave a consistent, “penned” appearance around the door profile. Results yield a subtle to dramatic look based on the complexity of the door’s design.
